## Freddie Mac BorrowSmart

## **Best Practices**

- Prepare borrowers before connecting them to HPF. Ensure they have a basic understanding of BorrowSmart, the borrower knows their property type and they reference Cardinal Financial during the initial call. The counseling session is a phone appointment.
- Provide HPF the annual gross qualifying income to our front-line staff and they have it available when they connect borrowers.
- Please only use 844-440-5577 to connect borrowers to HPF for the eligibility screening. We won't know if the borrower is associated with Cardinal Financial if they don't call your designated phone number.

- Discloses the \$99 fee to the borrowers before referring them to HPF. This helps set proper expectations with borrowers and minimizes any barriers to scheduling the appointment.
- Please set the expectation that borrowers might need to schedule their counseling appointment 2-4 days from the initial call.
- Centralize a process and select a champion at Cardinal Financial if brokers have questions about the program.

## **Client Journey**

The loan officer calculates the gross qualifying income and warm transfers borrower(s) to HPF.
